How to Choose the Right Perfume

Understand Your Preferences:

- Do you like fresh, woody, floral, spicy, or oriental scents?
- "HORIZON" might lean towards fresh or aquatic, but it depends on the brand.

Occasion:

Is it for daily wear, special events, or nighttime?

Seasonality:

- Fresh, citrusy, and aquatic scents (like "HORIZON" might be) are great for spring and summer.
- Warm, spicy, or woody scents work better in fall and winter.

2. How to Test a Perfume

Spray on Your Skin:

- Spray "HORIZON" on your wrist or inner elbow and let it sit for a few minutes. Perfumes react with your skin's pH, so it might smell different on you than on someone else.

Check the Dry-Down:

- The initial scent (top notes) will fade after 10–15 minutes, revealing the heart (middle notes) and base notes. This is the true scent you'll wear all day.

Avoid Over-Spraying:

Test one perfume at a time to avoid mixing scents.

3. Longevity and SILLAGE

Longevity:

- How long does "HORIZON" last on your skin? Most perfumes last 4–8 hours, but niche or luxury fragrances can last 12+ hours.

5. Layering Fragrances
